

AMM/TWW

17th September 2020

Dear Parent/carer

On Monday a member of our support staff was alerted via the government's test and trace system that they had been in contact with someone who had tested positive for Covid-19. This member of staff immediately self-isolated and subsequently developed symptoms and tested positive also.

As this is the first test result that we have had returned as positive we want to reassure you that Public Health England were happy with the rigorous and detailed processes and systems that we have put in place and as a result of these measures being strictly adhered to we do not have to close any bubbles and all students can remain in school. From the conversation with Public Health England we are able to confirm that no staff or students have been in close contact with the member of staff and therefore do not have to self-isolate.

Please be reassured that we will alert you to any future cases and will notify you if your child should need to self-isolate.

As always, if you have any concerns please contact the school directly.

Yours faithfully

Mrs A Martin
Principal
